Ajax • JQuery

PROJECTS

Z+ Security

- Developed a web-based application to streamline the FIR (First Information Report) filing and management process for citizens and police using smart contract features, ensuring secure access.
- Designed user and police interfaces for FIR management and implemented secure authentication with role-based access control for data privacy.

Digi Khata

- The Digi Khata is a Java-based application that simplifies billing, product management, and inventory control. It offers user-friendly interfaces for both administrators and receptionists.
- Built using Java, Swing, AWT, and an Oracle database, it enhances business efficiency in retail and other industries.

Reptile XO

- Reptile XO is a Java Swing application featuring two classic games: Snake and Tic-Tac-Toe, accompanied by an integrated quiz.
- The project demonstrates strong skills in Java, Swing GUI development, game mechanics, and interactive design, offering an engaging and informative user experience.
